

10 March 2022

Dear colleagues,

I am delighted to be able to confirm that FIGO and the Chien-Tien Hsu Research Foundation are partnering once again to offer [a travel Fellowship](#) to enable two young obstetricians and gynaecologists to attend the FIGO World Congress, which will next be held in Paris, France on 9–12 October 2023.

In addition to attending the FIGO 2023 World Congress, the Fellowship will provide an opportunity to attend a centre of excellence in gynaecologic oncology in Paris from 2 to 6 October 2023, to gain clinical and research experience. Please note that successful applicants must be available to attend both the centre placement and the World Congress in person.

[Details of the Fellowship and how to apply](#) are available on the FIGO website. Please note that the deadline for submission of applications is 7 May 2023, after which applications cannot be considered. Please circulate this exciting opportunity widely to your colleagues and encourage your trainees to apply.

In addition, if your National Member Society feels able to sponsor a future training opportunity in any aspect of women's health care, I would very much like to hear from you and can assure you that FIGO will help you to publicise and promote the opportunity widely.

Thank you for your kind attention. I do hope that you and your family members stay safe and well in these difficult times.

Kind regards,

Professor Dame Lesley Regan
FIGO Honorary Secretary
